

- Petition -

To the Honourable the Legislative Assembly of the Province of British Columbia, in Legislature Assembled:

The petition of the undersigned, KamloopsA4C, of the city of Kamloops, BC, states that:

Canadians are concerned by the **Minister of Environment and Climate Change Strategy, Hon George Heyman – Climate Change Policy**

- The 2030 Agenda For Sustainable Development / Vision 2050 The New Agenda for Business are private foreign corporate agenda and Canadians Constituents have not consented nor is there a consensus to adopt these Agenda;
- The (WEF World Economic Forum) is a foreign corporate group of unelected individuals headed by Klaus Schwab. Klaus Schwab, the author of "Covid-19: The Great Reset" and white papers written by WEF members found on their website <https://www.weforum.org/whitepapers> depict a grim future for Canadians with the plans to implement the Agenda resulting in a feudalistic technocracy;
- Canadians find this depiction of the future of Canada to be offensive and unacceptable;
- The Climate Change claims ('the science') that humans are the cause has not been factually verified. In fact - CO2 has not risen as claimed. Yet this false claim is being used to fraudulently pursue and create the implementation plans.;
- Science has been proven that other factors such as Solar Activity and the Earth's weakening magnetic field is driving Climate Change;
- The solutions advocated by the WEF to reduce global greenhouse gas emissions by:
 - reducing/rationing energy usage,
 - rolling blackouts,
 - climate fines / detention centres,
 - climate lockdowns and
 - Carbon Tax is not acceptable to Canadians;
- These restrictions will result in extensive societal damage and de-industrialization;
- The United Nations and the umbrella fringe groups under the UN like the WEF ultimately want to create a wealth transfer to "Stakeholder" benefit through these implementation plans;
- The WEF plan is to use Climate Change to obtain the control of individual Canadian citizens buying power and destroy small business by their fascistic organizations implementation of the Agenda;
- Canadians choose to instead reduce environmental pollutants by employing strategies such as:
 - a) reducing the shipment of produce from other countries to Canada by alternatively promoting local produce,
 - b) abolishing clear cut forestry for selective logging to protect Canadian carbon sinks,
 - c) abolishing weather modification in Canada to reduce the spraying of solid Carbon Dioxide and other chemicals harmful to the environment – specifically Carbon sinks,
 - d) and promotion of Carbon neutral fuels such as Squamish BC based Huron Clean Energy and Carbon Engineering – which remove Carbon Dioxide from the atmosphere to create hydrocarbon fuel;
- The sustainable development goals and the World Economic Forum benefit only "Stakeholders" and not Canadians;
- The proposed centralization of Carbon production control and Carbon Tax is a component of the WEF agenda. The Agenda 2030 and Agenda 2050 would allow a foreign corporate body to exclusively control the Carbon production of Canadians and Carbon Taxation. Canadians are not interested in handing over such control to the WEF or United Nations nor any other foreign unelected groups;
- Canadians want the implementation of any Agenda and the creation of Agenda to be planned and executed by Canadian Constituents only;
- Canadians want the removal of foreign corporate interests in Canadian Politics;
- Canadians want a private independent study into Climate Change Science, ;
- Canadian Constituents demand an active voice in the future plans of Canada;

Your petitioners respectfully request that the Honourable House to:

1. Desist implementing the private foreign corporate WEF Agenda in Canada;
 2. Immediately form a committee to create a British Columbia Constituent Agenda and implementation in BC;
 3. Call upon all **Members of the Legislative Assembly** to follow Canadian law and represent your constituents instead of foreign corporate private interest;
- Canadians feel our government is being controlled by the World Economic Forum and demand the interests of constituents be followed instead.*

Dated this ____ day of _____, 20 ____.
